

EXPRESS IDENTITY WITHOUT LIMITS

OUR GREEN INNOVATION

OUR CHALLENGE

No embellished sportswear garment can be recycled today and they all contribute to the **unsustainable accumulation of textile waste**.

Although **65% of fashion consumers** claim to be prepared to opt for a sustainable product vs a non-sustainable one.

OUR SOLUTION

the very first fully chemically
recyclable heat transfer
on 100% polyester fabric

THE FIRST ONE

After years of research, we are proud to bring to market the very first solution to make your **embellished polyester garments recyclable**.

NO COMPROMISE ON DURABILITY

NO COMPROMISE ON COLOR VIBRANCE

FULLY RECYCLABLE

NO COMPROMISE ON FLEXIBILITY

RECY[S]

THE PROOF

We have put RECYS through extensive testing, internal and external and are excited to report that:

Internal tests concluded that RECYS delivers the **same level of quality and durability** as existing Stilscreen's solutions.

Third party labs **qualifies RECYS as fully recyclable** applied to 100% polyester fabric.

Centrocot granted ID UNLIMITED ITALY's **ISO 14021** certification which validates the labelling of RECYS as a fully chemically recyclable product.

THE RANGE

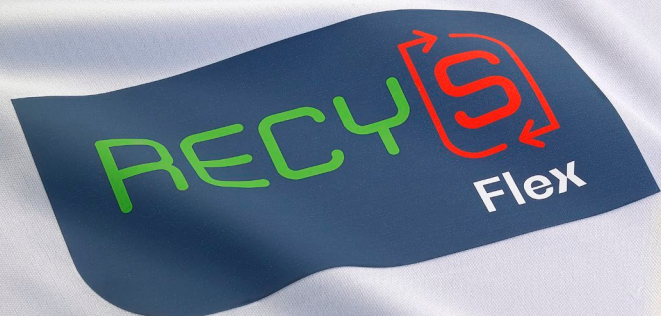

RECYS has been developed for
a wide range of products:

IN ALL PANTONE COLORS

IN MATT & SHINY EFFECTS

Flex

Our most versatile products

Sublifix MR

For sublimation printed fabrics

Flexnet

For 3D effects and special patterns

We are changing the textile personalization industry.

RECYS is the first chemically recyclable heat transfer on 100% polyester fabric and represents the vision guiding our daily operations.
